Zoological Record

Family of Products

Zoological Record (ZR) has been leading the field of animal science research for over one hundred years. Don't miss out.

- A file of 72,000 new citations each year, selected by experienced biologists
- References from 4,500 active serials
- An archive of more than 1.5 million records available through CD, Web, and online formats

Since ***ZR*** indexes records from every area of animal science, its coverage area expands beyond taxonomy and systematics to include everything from biodiversity to zoogeography. Zoologists, laboratory researchers, librarians, and faculty staffs worldwide have used it as an authority for animal science references for more than a century. If you're doing work in the animal sciences, ***ZR*** is the ideal reference.
